To whom it may concern at the FCC:

I urge you to reject the NAB's petition 04-160. I feel XM radio offers a wonderful service that is not only entertaining it can be valuable tool and is very affordable. The traffic and weather channels offer on time accurate reports of local conditions to people that live in metropolitan areas and can be invaluable to the traveler who is not from an area but is an XM subscriber who now has access to valuable information at their fingertips that is sometimes lacking or hard to find from local broadcasters. XM subscribers are offered a variety of programming from music to talk that we pay for and it should not be up to the National Association of Broadcasters to dictate what I choose to listen to. Thank you.

Thomas Seidenkranz
